

New release this fall, at West Park Village

In the celebrated master-planned community of West Park Village in Cobourg, VANDYK Communities has an exciting new release of freehold bungalow townhomes, with common element rear laneways. This exclusive collection is scheduled for **release October 15th**, and promises to be a big hit among homebuyers looking for innovative home designs, excellent value and one of the best locations east of the GTA.

Brand new home designs offer two- and three-bedroom floor plans with open-concept spaces and large principle rooms. Every home comes with VANDYK's custom-quality features and finishes, including a combination of brick, stone and vinyl siding exteriors, ceramic tile flooring in wet rooms and luxurious bathrooms. Affordably priced, from the \$220s, these homes offer incredible value and are an important addition to the family of home designs at West Park Village.

“The bungalow townhome is one of our most popular designs, so we don't expect these homes to last long,” says Massimo Marotta, Director of Corporate Marketing for VANDYK Communities. “People looking to downsize love the convenience of a bungalow, and the rear laneway offers more privacy for backyards. We're very proud of this collection and look forward to unveiling it to homebuyers.”

Interested purchasers are encouraged to register online for a preview showing of the bungalow towns, prior to the collection's grand opening. Visit www.vandyklifestyle.com or call 905-373-4149 (1-888-245-5494).
